*As of late 2023, the Gladney Center for Adoption formally assumed all international adoption programs previously administered by Madison Adoption Associates. While current statistical data reported by Gladney does not include placement or application figures from cases completed under Madison’s purview, the incorporation of these programs is anticipated to result in a substantial increase in Gladney’s reported figures beginning in 2024 and continuing thereafter.

Total Number of Children Currently Awaiting Adoption

Gladney Center for Adoption specializes in the placement of waiting children from the countries we work in. As of 2025, Gladney has active programs in Bulgaria, China (Relative only), Colombia, Dominican Republic, Ecuador, Hong Kong, India, the Philippines, Taiwan, Thailand and Vietnam.

Although Gladney Center for Adoption does not have any exclusive referrals of waiting children in any of our programs, we devote a significant amount of time and resources to advocacy and child specific recruitment. Our agency will advocate to find families for legally free waiting children who are available for placement by agencies accredited to work in that country.
